- 1. Annual workload is provided in Section C-5.
- 2. The annual workload is not guaranteed to be equal from month-to-month.
- 3. The fixed prices are binding for plus or minus 15% (115%-85%) of the total quantity count for the requirements of 5.1, 5.2 and 5.3 and plus or minus 25% (125%-75%) of the total quantity count for requirements 5.4 and 5.5.
- 4. Quantities delivered will be reviewed on a semi-annual basis (every six months from the performance start date) for variations during the total six-month period.
- 5. The 15% and the 25% variances are applied to the total six-month period per primary requirement.
- 6. Equitable adjustments (up or down) to invoices will be based upon the semi-annual reviews.

The service provider shall take actions to manage the workload to meet the estimates. The service provider shall notify the Project Officer via email when 75%, 90%, 95% and 100% quantity levels are met each month for the primary requirements.

Award Term Year Two Period of Performance: April 1, 2011 through March 31, 2012 (To Be Completed At Time of Award, for bidding purposes assume the above dates will be the period of performance)

- 4. Quantities delivered will be reviewed on a semi-annual basis (every six months from the performance start date) for variations during the total six-month period.
- 5. The 15% and the 25% variances are applied to the total six-month period per primary requirement.
- 6. Equitable adjustments (up or down) to invoices will be based upon the semi-annual reviews.

The service provider shall take actions to manage the workload to meet the estimates. The service provider shall notify the Project Officer via email when 75%, 90%, 95% and 100% quantity levels are met each month for the primary requirements.

** UNIFORM ALLOWANCE **

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

** NOTES APPLYING TO THIS WAGE DETERMINATION **

Source of Occupational Title and Descriptions:

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations," Fourth Edition, January 1993, as amended by the Third Supplement, dated March 1997, unless otherwise indicated. This publication may be obtained from the Superintendent of Documents, at 202-783-3238, or by writing to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Copies of specific job descriptions may also be obtained from the appropriate contracting officer.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE {Standard Form 1444 (SF 1444)}

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. (See Section 4.6 (C)(vi)) When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).
- 2) After contract award, the contractor prepares a written report listing in order proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.
- 3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).
- 4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.
- 5) The contracting officer transmits the Wage and Hour decision to the contractor.
- 6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.

VACATION: 2 weeks paid vacation after 1 year of service with a contractor or successor; 3 weeks after 8 years, and 4 weeks after 15 years. Length of service includes the whole span of continuous service with the present contractor or successor, wherever employed, and with the predecessor contractors in the performance of similar work at the same Federal facility. HOLIDAYS: A minimum of ten paid holidays per year: New Year's Day, Martin Luther King Jr.'s Birthday, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. (A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4.174)

THE OCCUPATIONS WHICH HAVE PARENTHESES AFTER THEM RECEIVE THE FOLLOWING BENEFITS (as numbered):

- 1) Does not apply to employees employed in a bona fide executive, administrative, or professional capacity as defined and delineated in 29 CFR 541. (See CFR 4.156)
- 2) APPLICABLE TO AIR TRAFFIC CONTROLLERS ONLY NIGHT DIFFERENTIAL: An employee is entitled to pay for all work performed between the hours of 6:00 P.M. and 6:00 A.M. at the rate of basic pay plus a night pay differential amounting to 10 percent of the rate of basic pay.
- 3) WEATHER OBSERVERS NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am. If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

HAZARDOUS PAY DIFFERENTIAL: An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordinance, explosives, and incendiary materials. This

includes work such as screening, blending, dying, mixing, and pressing of sensitive ordance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder. All dry-house activities involving propellants or explosives. Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordance, explosives, and incendiary material differential pay.

** UNIFORM ALLOWANCE **

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

** NOTES APPLYING TO THIS WAGE DETERMINATION **

Source of Occupational Title and Descriptions:

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations," Fourth Edition, January 1993, as amended by the Third Supplement, dated March 1997, unless otherwise indicated. This publication may be obtained from the Superintendent of Documents, at 202-783-3238, or by writing to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Copies of specific job descriptions may also be obtained from the appropriate contracting officer.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE {Standard Form 1444 (SF 1444)}

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage

determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. {See Section 4.6 (C)(vi)} When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).
- 2) After contract award, the contractor prepares a written report listing in order proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.
- 3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).
- 4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.
- 5) The contracting officer transmits the Wage and Hour decision to the contractor.
- 6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.

SECTION L

INSTRUCTIONS, CONDITIONS AND NOTICES TO OFFERORS

ARTICLE L.1 GENERAL INFORMATION

SOLICITATION DEFINITIONS (FAR 52.202-1)(DEC 2001)

- "Government" means United States Government.
- "Offer" means "proposal" in negotiation.
- "Solicitation" means Request for Proposal(s) (RFP) in negotiation.
- "Service Provider" and "Contractor" are used interchangeably.

NOTICE OF SMALL BUSINESS SET-ASIDE

- (a) General. Bids or proposals under this procurement are solicited only from small business concerns. The procurement is to be awarded only to one or more such concerns, organizations, or individuals. This action is based on a determination by the Contracting Officer, alone or in conjunction with a representative of the Small Business Administration, that it is in the interest of maintaining or mobilizing the Nation's full productive capacity, or in the interest of war or national defense programs, or in the interest of assuring that a fair proportion of Government procurement is placed with small business concerns. Bids or proposals received from others will be considered non-responsive.
- (b) **Definitions.** The term "small business concern" means a concern, including its affiliates, which is independently owned or operated, is not dominant in the field of operation in which it is bidding on Government contracts, and can further qualify under the criteria set forth in the regulations of the Small Business Administration (13 CFR 121.3-8). In addition to meeting these criteria, a manufacturer or a regular dealer submitting bids or proposals in his own name must agree to furnish in the performance of the contract end items manufactured or produced in the United States, its territories and possessions, Commonwealth of Puerto Rico, the Trust Territory of the Pacific Islands, and the District of Columbia, by small business concerns. Provided, that this additional requirement does not apply in connection with construction or service contracts.

TEAM DESIGNATIONS, RESPONSIBILITIES, AND RESTRICTIONS

This acquisition will be conducted in accordance with Attachment B, "Public-Private Competitions," of the OMB Circular No. A-76 (Revised May 29, 2003). Offerors are hereby advised that the NIH has employed a consultant to assist in various phases of the acquisition. Said consultant is familiar with the GAO Jones/Hill Venture Decision B-286194.4; B-286194.5; B-286194.6 and will scrupulously maintain a separation between its employees that are assisting the NIH in the development of the PWS and the MEO. The consultant agrees that any "individuals or groups working on the development of the PWS shall not share information or in any way influence the development of MEO."

FIREWALLS

The procedures for conducting this solicitation are in compliance with Circular No. A-76 (Revised, May 29, 2003). The Government with the assistance of its consultant developed the Performance Work Statement (PWS) to be included in the solicitation under Section C. The Government was also assisted by its consultant to develop Section C, Section B, Section L and Section M. The Government with the assistance of its consultant will also develop its Agency Tender, a proposal, in response to this solicitation. The Source Selection Evaluation Board will be Government employees who may receive technical assistance from other consultants. In order to avoid the potential for or appearance of a conflict of interest a "firewall" exists between Government and its consultant employees that developed the PWS, Sections C, B, L and M and the Agency Tender. The Government and consultant will not allow its employees that develop the PWS, Sections C, B, L and M to participate in any way in the Agency Tender. Government and its consultant's employees developing the Agency Tender did not participate in the development of this solicitation in any manner and will only receive information about this solicitation that is made public information. The Government employees who will serve on the Source Selection Evaluation Board (SSEB) may have

participated in the development of the PWS but in no manner participated or was associated with the development of the Agency Tender. The consultant's employees that assisted in the development of the PWS, Sections C, B, L and M and the Agency Tender will not participate on the SSEB in any manner or participate in the evaluation of the Agency Tender or other proposals.

All of the consultant's employees supporting the NIH Circular A-76 program have signed Non-Disclosure Certificates.

The Government and its consultant's employees that <u>developed the PWS</u>, Sections C, B, L and M received and signed letters that include the following:

"Your duties will include serving as a technical and functional expert. You shall be responsible for: (1) assisting in the development of the PWS, Quality Assurance Surveillance Plan (QASP), supporting workload data, and any information relating to the activity being competed; (2) Documenting the determination of government furnished property, equipment and facilities; (3) assisting the Contracting Officer (CO) in data collection and analysis used to develop the solicitation; and (4) compliance with OMB Circular A-76 (Revised).

You may be personally and substantially participating in the development of the solicitation, and could forfeit your Right-of-First-Refusal (FAR 52.207-3) and your right to employment with the MEO before the award decision is final, including the resolution of all protests. You are also in a conflict of interest to solicit employment from potential offerors prior to the comparison decision. Efforts will be taken to minimize your involvement that could affect postemployment opportunities.

You will be preparing procurement sensitive data and must comply with non-disclosure and non-competition requirements. As a member of the PWS team, you are required to act in full compliance with OMB Circular A-76, which prohibits any discussion between the MEO team members, and PWS team members regarding the content of the MEO or PWS. You are also prohibited from disclosing confidential, proprietary, and/or source selection information to any individual or entity, unless that individual or entity is authorized by the CO to receive such information.

Your acceptance of your duties and responsibilities as PWS Team member and your signature below acknowledges your agreement to abide by the Rules of Conduct regarding conflicts of interest and the safeguarding of confidential information."

The Government and its consultant's employees <u>developing the Agency Tender</u> received and signed letters that included the following:

"Your duties will include serving as a technical and functional expert. You shall be responsible for complying with the Circular and assisting the ATO, Human Resources Advisor (HRA) and the MEO team leader in developing the agency tender.

You will be preparing procurement sensitive data and must comply with non-disclosure and non-competition requirements. As a member of the MEO team, you are required to act in full compliance with OMB Circular A-76, which requires you to maintain a firewall and prohibits any discussion between the MEO team members and PWS team members regarding the content of the MEO. You are also prohibited from disclosing confidential, proprietary, and/or source selection information to any individual or entity, unless that individual or entity is authorized by the Contracting Officer to receive such information. Your acceptance of your duties and responsibilities as an MEO Team member and your signature below acknowledges your agreement to abide by the Rules of Conduct regarding conflicts of interest and the safeguarding of confidential information."

The Government employees **serving on the SSEB** received and signed letters the included the following:

That you, your spouse, and dependent child(ren) do not have any direct or indirect financial interest or any other beneficial interest in a potential competing contractor on this procurement. Please note any exceptions to this below:

That you, your spouse, and dependent child(ren) agree not to acquire any direct or indirect financial interest or any other beneficial interest in an actual competing contractor on this procurement during the source selection process

That you are not related to anyone, by blood or by marriage, who is employed by a potential or actual competing contractor on this procurement. Please note any exceptions to this below:

That you agree not to solicit or accept, directly or indirectly, any promise of future employment or business opportunity from an officer, employee, representative, agent, or consultant of a competing contractor on this procurement during the source-selection process;

That you agree not to discuss any future employment or business opportunity from an officer, employee, representative, agent, or consultant of a competing contractor on this procurement during the source selection process;

The Government and its consultant's employees working on the **PWS Team** had a separate work space with locking doors and files, stand alone computer (not connected to a network) and paper shredder to maintain the security of procurement sensitive documents. Staff stressed on a daily basis the importance of firewalls with all team members and identified items that were procurement sensitive for the entire PWS Team.

The Government and its consultant's employees working on the **Agency Tender** have a separate work space with locking doors and files, stand alone computer (not connected to a network) and paper shredder to maintain the security of the Agency Tender documents. Staff stresses on a daily basis the importance of firewalls with all team members. Team members know that allowing information to be given to anyone outside the Agency Tender Team could potentially harm the Agency Tender and provide the competition with an unfair advantage.

The Government employees serving on the **SSEB** conduct themselves in the manner consistent with all Government proposal evaluations.

NOTICE OF COST COMPARISON (NEGOTIATED) (52.207-2)(FEB 1993)

- (a) This solicitation is part of a Government cost comparison to determine whether accomplishing the specified work under contract or by Government performance is more economical. If Government performance is determined to be more economical, this solicitation will be canceled and no contract will be awarded.
- (b) The Government's cost estimate for performance by the Government will be based on the work statement in this solicitation and will be submitted by designated agency personnel to the Contracting Officer in a sealed envelope not later than the time set for receipt of initial proposals.
- After completion of proposal evaluation, negotiation, and selection of the most advantageous proposal, the Contracting Officer, in the presence of the preparer of the cost estimate for Government performance, will open the sealed cost estimate envelope. These officials will make a cost comparison before public announcement. Depending on whether the cost comparison result favors performance under contract or Government performance, the procedure in either paragraph (1) or (2) following applies:
 - (1) If the result of the cost comparison favors performance under contract and administrative approval is obtained, the Contracting Officer will award a contract and publicly reveal the completed cost comparison form showing the cost estimate for Government performance, its detailed supporting data, and the Contractor's name. However, this award is conditioned on the offer remaining the more economical alternative after
 - (i) completion of a public review period of **20 working days** beginning with the date this information is available to interested parties and
 - (ii) resolution of any requests for review under the agency appeals procedure (see paragraph (d) of this section). The Contracting Officer will then either notify the Contractor in writing that it may proceed with performance of the contract or will cancel the contract at no cost to the Government.
 - (2) If the result of the cost comparison favors Government performance, the Contracting Officer will publicly disclose this result, the completed cost comparison form and its detailed supporting data, and the cost/price of the offer most advantageous to the Government. After (i) completion of a public review period of **20 working days** beginning with the date this information is available to interested parties and (ii) resolution of any requests for review under the agency appeals procedure (see paragraph (d) of this section), the Contracting Officer will either cancel this solicitation or award a contract, as appropriate.
- (d) During the public review period, directly affected parties may file with the Contracting Officer written requests, based on specific objections, for administrative review of the cost comparison result under the agency appeals procedure. The appeals procedure shall be used only to resolve questions concerning the calculation of the cost comparison and will not apply to questions concerning award to one offeror in preference to another. Agency determinations under the appeals procedure shall be final.

(e) A cost estimate for Government performance is considered a proposal for purposes of this solicitation's Late Submissions, Modifications, and Withdrawal of Proposals or Quotations provision, and a late modification that displaces an otherwise low cost estimate for Government performance shall not be considered.

Evaluation of options will not obligate the Government to exercise the option(s).

<u>Drive, Gaithersburg, MD 20877</u>. Round-trip bus transportation will be provided between the various sites and buildings. All attendees are required to arrive one (1) hour prior to the established specified time. Therefore, the ARRIVAL TIME for all sites is tentatively set for 8:00 A.M. local time. The tour will start at 9:00 A.M. The Site Visits are **scheduled for July 27 AND July 28, 2004**. (Times are subject to change)

Due to security reasons, Offerors are required to submit via email to the Contracting Officer (custers@od.nih.gov) and Rosanne Wilson (wilsonr@od.nih.gov) a list of prospective attendees that will be attending the site visits by July 23, 2004 at 1:00 p.m. local time. Due to space limitations, each offeror shall have no more than three (3) representatives at the site visit. Offerors are required to submit all questions in writing to the Contracting Officer no later than 4:00 p.m., local time (within 24 hours after the site visits) July 29, 2004. Questions must be submitted via electronic mail ONLY to the attention of Sheri Custer at custers@od.nih.gov Questions must specify the Section, Paragraph of the solicitation, and Designate which Site the question is being addressed, and for which clarification is desired.

TECHNICAL LIBRARY

The library will open Monday through Friday during the hours of 9:00 a.m. to 3:00 p.m. The library is located in Suite 300 Conference Room at the Gaither Distribution Center, 16050 Industrial Drive, Gaithersburg, MD 20877.

OMB CIRCULAR A-76

In accordance with OMB Circular A-76 and HHS's General Administration Manual Chapter 18-10, the Government is preparing an estimated cost for the in-house performance of the work required by this solicitation, a process that will take place concurrently with the development of bids/proposals by the private sector. Accordingly, a contract will result from this solicitation, after technical and cost evaluations have been completed for both in-house performance and contracted-out performance. A copy of the completed cost comparison will be made available to all parties.

If this solicitation/contract results in the conversion of a function from in-house performance by the Government to contractual performance, there is the possibility that HHS employees consider employment with the contractor. The contractor is required to give these displaced personnel the right of first refusal for employment openings on the contract, provided that they are qualified for the openings (See clause above). Utilization of former Government employees by a contractor must be consistent with postemployment conflict of interest standards as set forth in the code of Federal Regulations, Title 5, Part 737.

HHS has a policy that Reduction-In-Force (RIF) authority will NOT be used to implement in-house performance changes or in conversion to contract. Therefore, all offerors should consider significantly different models for availability of affected workers in comparison to DOD experiences where RFI authority made more effective workers available for the Service Provider to hire. The differences are anticipated in regard to availability of affected workers for employment and the willingness of affected workers to accept lower pay and benefits.

NOTICE TO OFFERORS

- (a) It is brought to the attention of the offerors the unique A-76 environment they will find themselves in at the NIH. The fact that the Secretary of HHS has promised that no one will 'lose a job' may have a substantive effect on the ability of offerors to hire existing NIH employees.
- (b) The NIH does not intend to 'Terminate for Convenience' any contracts within the scope of the PWS during their current period of performance.

ORAL PRESENTATIONS

Oral presentations may or may not be a part of discussions. Should oral presentations be necessary, more information will be provided after the initial technical evaluation. Oral presentations will be provided as specified in the directions for each proposal volume. Offerors found to be in the competitive range after an initial evaluation may be required to give oral presentations. The oral presentation shall not exceed two (2) hours and will be followed by a one (1) hour question and answer session. Each offeror will be given at least two calendar days notice of the scheduled date for oral presentations.

Cost and/or price issues may be discussed during the oral presentation. The oral presentation and the question and answer session shall constitute discussions.

The offeror's presenter must be from among the offeror's proposed key personnel. The offeror may not use a professional speaker, however individuals proposed as key personnel from a subcontractor may participate. The proposed Project and Deputy Project Manager must attend. The offeror may not send more than five (5) representatives to the oral presentation. The oral presentation shall commence with an introduction by name, position, company affiliation, area of expertise for each key personnel, and role related to their proposal. Introductions will count towards the time limit. If slides are part of the presentation, the offeror shall provide printed copies to the Contracting Officer at the time of the presentation. Slides shall be designated for insertion into the proper Tab by Volume, as detailed in Article L3. The offeror's technical person will videotape their presentation and the follow-on question and answer session and provide a copy of the tape to the Contracting Officer at the end of the session. The Government will not provide a duplicate.

At a minimum, the offeror's proposed information technology systems security program must address the minimum requirements of a **Security Level** <u>5C</u> identified in the DHHS AISSP Handbook, Exhibit III-A, Matrix of Minimum Security Safeguards.

- (3) Include an acknowledgment of its understanding of the security requirements in the SOW.
- (4) Provide similar information for any proposed subcontractor developing or accessing an AIS.

(c) Required Training for IT Systems Security

DHHS policy requires that contractors receive security training commensurate with their responsibilities for performing work under the terms and conditions of their contractual agreements.

The successful offeror will be responsible for assuring that each contractor employee has completed the following NIH Computer Security Awareness Training course prior to performing any contract work: http://irtsectraining.nih.gov/
The contractor will be required to maintain a listing of all individuals who have completed this training and submit this listing to the Government.

Additional security training requirements commensurate with the position may be required as defined in OMB Circular A-130 or NIST Special Publication 800-16, "Information Technology Security Training Requirements." These documents provide information about IT security training that may be useful to potential offerors:

(d) Prospective Offeror Non-Disclosure Agreement

The Government has determined that prospective offerors will require access to the sensitive information described below in order to prepare an offer.

Any individual having access to this information must possess a valid and current suitability determination at the following level:

[] Level 6C: Sensitive - High Risk [X] Level 5C: Sensitive - Moderate Risk

To be considered for access to the sensitive information, a prospective offeror must:

- (1) Submit a written request to the Contracting Officer identified in the solicitation;
- (2) Complete and submit the "Prospective Offeror Non-Disclosure Agreement" provided as an attachment in Section J of this solicitation; and
- (3) Receive written approval from the Contracting Officer.

Prospective offerors are required to process their requests for access, receive Government approval, and then access the sensitive information within the period of time provided in the solicitation for the preparation of offers.

Nothing in this provision shall be construed, in any manner, by a prospective offeror as an extension to the stated date, time, and location in the solicitation for the submission of offers.

If <u>hand delivering</u>, or using a <u>courier service</u> such as: UPS, Federal Express, etc., use the following **City, State and Zip Code:** Rockville, MD 20852

<u>NOTE</u>: The U.S. Postal Service's "Express Mail" <u>does not</u> deliver to the Rockville, Maryland address. Any package sent to the Rockville address via this service will be held at a local post office for pick-up. <u>The Government is not responsible for picking up any mail at a local post office.</u> If a proposal is not received at the place, date, and time specified herein, it will be considered a "late proposal".

(4) Restriction on Disclosure and Use of Data (HHSAR 352.215-12)(APR 1984)

The proposal submitted in response to this request may contain data (trade secrets; business data, e.g., commercial information, financial information, and cost and pricing data; and technical data) which the offeror, including its prospective subcontractor(s), does not want used or disclosed for any purpose other than for evaluation of the proposal. The use and disclosure of any data may be so restricted; provided, that the Government determines that the data is not required to be disclosed under the Freedom of Information Act, 5 U.S.C. 552, as amended, and the offeror marks the cover sheet of the proposal with the following legend, specifying the particular portions of the proposal which are to be restricted in accordance with the conditions of the legend. The Government's determination to withhold or disclose a record will be based upon the particular circumstances involving the record in question and whether the record may be exempted from disclosure under the Freedom of Information Act:

"Unless disclosure is required by the Freedom of Information Act, 5 U.S.C. 552, as amended, (the Act) as determined by Freedom of Information (FOI) Officials of the Department of Health and Human Services, data contained in the portions of this proposals which have been specifically identified by page number, paragraph, etc., by the offeror as containing restricted information shall not be used or disclosed except for evaluation purposes."

The offeror acknowledges that the Department may not be able to withhold a record (data, document, etc.) nor deny access to a record requested pursuant to the Act and that the Department's FOI Officials must make that determination. The offeror hereby agrees that the Government is not liable for disclosure if the Department has determined that disclosure is required by the Act.

If a contract is awarded to the offeror as a result of, or in connection with, the submission of this proposal, the Government shall have the right to use or disclose the data to the extent provided in the contract. Proposals not resulting in a contract remain subject to the Act.

The offeror also agrees that the Government is not liable for disclosure or use of unmarked data and may use or disclose the data for any purpose, including the release of the information pursuant to requests under the Act.

The data subject to this restriction are contained in pages (insert page numbers, paragraph designation, etc. or other identification).

In addition, the offeror should mark each page of data it wished to restrict with the following legend:
"Use or disclosure of data contained on this page is subject to the restriction on the cover sheet of this proposal or quotation."

Offerors are cautioned that proposals submitted with restrictive legends or statements differing in substance from the above legend, may not be considered for award. The Government reserves the right to reject any proposal submitted with a nonconforming legend.

(5) **Privacy Act**

The Privacy Act of 1974 (P.L. 93-579) requires that a Federal agency advise each individual whom it asks to supply information, the authority which authorizes the solicitation, whether disclosure is voluntary or mandatory, the principal purpose or purposes for which the information is intended to be used, the uses outside the agency which may be made of the information, and the effects on the individual, if any, of not providing all or any part of the requested information.

The NIH is requesting the information called for in this RFP pursuant to the authority provided by Sec. 301(g) of the Public Health Service Act, as amended, and P.L. 92-218, as amended.

Providing the information requested is entirely voluntary. The collection of this information is for the purpose of conducting an accurate, fair and adequate review prior to a discussion as to whether to award a contract.

Failure to provide any or all of the requested information may result in a less than adequate review.

In addition, the Privacy Act of 1974 (P.L. 93-579, Sec. 7) requires that the following information be provided when individuals are requested to disclose their social security number.

Provisions of the social security number are voluntary. Social security numbers are requested for the purpose of accurate and efficient identification, referral, review and management of NIH contracting programs. Authority for requesting this information is provided by Section 305 and Title IV of the PHS Act, as amended.

The information provided by you may be routinely disclosed for the following purposes:

- --- to the cognizant audit agency and the General Accounting Office for auditing.
- --- to the Department of Justice as required for litigation.
- --- to respond to congressional inquiries.
- --- to qualified experts, not within the definition of Department employees, for opinions as a part of the review process.

(6) Selection of Offerors

- (a) The acceptability of the technical portion of each contract proposal will be evaluated by the technical review committee. To be technically acceptable, an offeror must be evaluated as good or excellent in all four technical criteria and the two price/cost criteria. A neutral rating for past performance is technically acceptable. The committee will evaluate each proposal in strict conformity with the evaluation criteria of the RFP, utilizing pass/fail. The committee may suggest that the Contracting Officer request clarifying information from an offeror.
- (b) The business portion of each contract proposal will be subjected to a cost realism/price analysis, management analysis, etc.
- (c) The Contracting Officer will, in concert with program staff, decide which proposals are in the competitive range. Oral presentations may be a part of discussions and will be conducted with all offerors in the competitive range.

(7) Acknowledgment of Amendments to the Solicitation

- (a) If this solicitation is amended, then all terms and conditions which are not modified remain unchanged.
- (b) Offerors shall acknowledge receipt of any amendment to this solicitation (1) by signing and returning the amendment, (2) identifying the amendment number and date in he space provided for this purpose on the form for submitting an offer, (3) letter or telegram, or (4) facsimile, if facsimile offers are authorized in the solicitation. The Government must receive the acknowledgment by the time specified for receipt of offers.

(8) <u>Notice of Compensation for Professional Employees</u>

Note the provisions relating to evaluation of compensation for professional employees set forth elsewhere in this solicitation. Failure to comply with these provisions may constitute sufficient cause to justify rejection of a proposal.

The total compensation plan required to be submitted by the offeror will be viewed as being within the purview of Public Law 87-653 (10 U.S.C. 2306(f).

(9) <u>Evaluation of Compensation for Professional Employees (FAR 52.222-46)(Feb 1993)</u> - If Applicable <u>Included In Volume V - Tab 2 - Price/Cost Proposal</u>

- (a) Recompetition of service contracts may in some cases result in lowering the compensation (salaries and fringe benefits) paid or furnished professional employees. This lowering can be detrimental in obtaining the quality of professional services needed for adequate contract performance. It is therefore in the Government's best interest that professional employees, as defined in 29 CFR 541, be properly and fairly compensated. As a part of their proposals, offerors will submit a total compensation plan setting forth salaries and fringe benefits proposed for the professional employees who will work under the contract. The Government will evaluate the plan to assure that is reflects a sound management approach and understanding of the contract requirements. This evaluation will include an assessment of the offeror's ability to provide uninterrupted high-quality work. The professional compensation proposed will be considered in terms of its impact upon recruiting and retention, its realism, and its consistency with a total plan for compensation. Supporting information will include data, such as recognized national and regional compensation surveys and studies of professional, public and private organizations, used in establishing the total compensation structure.
- (b) The compensation levels proposed should reflect a clear understanding of work to be performed and should indicate the capability of the proposed compensation structure to obtain and keep suitably qualified personnel to meet mission objectives. The salary rates or ranges must take into account differences in skills, the complexity of various disciplines, and professional job difficulty. Additionally, proposals envisioning compensation levels lower than those of predecessor contractors for the same work will be evaluated on the basis of maintaining program continuity, uninterrupted high-quality work, and availability of required competent professional service employees. Offerors are cautioned that lowered compensation for essentially the same professional work may indicate lack of sound management judgment and lack of understanding of the requirement.
- (c) The government is concerned with the quality and stability of the work force to be employed on this contract. Professional compensation that is unrealistically low or not in reasonable relationship to the various job categories, since it may impair the Contractor's ability to attract and retain competent professional service employees, may be viewed as evidence of failure to comprehend the complexity of the contract requirements.
- (d) Failure to comply with these provisions may constitute sufficient cause to justify rejection of a proposal.

(10) Total Compensation Plan - Evaluation Included In Volume V - Tab 2 - Price/Cost Proposal

- (a) Total Compensation Plan (Professional Employees). In establishing compensation levels for professional employees, the total compensation (both salaries and fringe benefits) proposed shall reflect a clear understanding of the requirements of the work to be accomplished and the suitability of the proposed compensation structure to obtain and retain qualified personnel to meet mission objectives. The salary rates or ranges must recognize the distinct differences in professional skills and the complexity of varied disciplines as well as job difficulty. Proposals offering total compensation levels less than currently being paid by the predecessor contractor for the same work will be evaluated, in addition to the above, on the basis of maintaining program continuity, uninterrupted work of high quality, and availability of required competent professional employees. Offerors are cautioned that instances of lowered compensation for essentially the same professional work may be considered a lack of sound management judgment in addition to indicating a lack of understanding of the requirement.
- (b) Cost (Professional Compensation). Proposals which are unrealistically low or do not reflect a reasonable relationship of compensation to the professional job categories so as to impair the contractor's ability to recruit and retain competent professional employees, may be viewed as reflecting a failure to comprehend the complexity of the contract requirements. The Government is concerned with the quality and stability of the work force to be employed on this contract. The compensation data required will be used in evaluation of the offeror's understanding of the contract requirements.
- (c) Other (Labor Relations). An assessment of the potential for adverse effect upon performance and maintenance of the required number of professional employees will requisite skills resulting from an unrealistically low compensation will also be made.

- (1) It is HHS policy that contractors will provide all equipment and facilities necessary for performance of contracts. Exception may be granted to furnish Government-owned property, or to authorize purchase with contract funds, only when approved by the Contracting Officer. IF the offeror is proposing that the Government provide any equipment, other than that specified under Government Furnished Property in the RFP, the proposal must include comprehensive justification which includes:
 - (i) An explanation that the item is for a special use essential to the direct performance of the contract the item will be used exclusively, etc., will not be provided under a contract except under very exceptional circumstances.
 - (ii) No practical or economical alternative exists (e.g., rental, capital investment) than can be used to perform the work.
- (2) The offeror shall identify Government-owned property in its possession and/or contractor titled property acquired from Federal funds, which they propose to use in the performance of the prospective contract.

(e) Facilities Capital Cost of Money

(This is applicable if you are a commercial organization).

Facilities capital cost of money (see FAR 15.904) will be an allowable cost under the contemplated contract, but only if the contractor specifically identifies or proposes it in the cost proposal for the contract and elects to claim this cost by checking the appropriate box below. GENERAL INSTRUCTIONS

The written proposal must be prepared in accordance with the General Instructions, specific volume instructions, as well as with the Performance Work Statement, Section C of this Request for Proposals (RFP).

Each volume shall be separate and complete documents in order that evaluation of each may be accomplished independently of, or concurrently with, evaluation of the other.

The Past Performance, Technical Approach, Personnel, and Management proposals shall not include any information concerning cost/prices, i.e., unit prices, individual salary information, material cost, burden rates, profit amounts or total cost/price. These instructions establish the acceptable minimum requirements for the format and content of proposals. Offerors shall direct all communications to the attention of the Contracting Officer cited on the face page of the solicitation. Communication with other NIH personnel may constitute improper actions.

Some parts of volumes contain specific page limitations. The limitation is a page number that cannot be exceeded. Clear, compliant communication in fewer pages is appreciated. Cover pages and tables of contents do NOT count towards page limitations and are not evaluated. A page is defined as an 8½ inch by 11 inch sheet of paper with one inch margins on all four sides. Text shall be in Arial or times new roman font of size 12 with single space between lines. Text pages should use portrait orientation. Page formatting can alter for illustrations and tables but must be easily readable. Fold-outs will be counted as the appropriate number of pages based upon an 8½ inch by 11 inch sheet of paper. The Contractor shall number each page in order to eliminate any confusion. In the event that the offeror creates an ambiguity in the numbering of pages, the Government will exercise its own discretion in the counting of pages. Pages in excess of limitations will NOT be evaluated. Volumes require specific organization of material behind required tabs. Required forms may use landscape orientation.

Each volume is required to have a volume cover that states the name of the offeror, the solicitation title and number, the date of submission and the volume number and title. Each volume shall include a table of contents that enhances the location of required data. Each volume is required to have the same cover page after the table of contents. The cover page shall state the: (1) name, address, point of contact, phone number, fax number, email, and website of the offeror; (2) name, address, point of contact, phone number, fax number, email, and website of each member of a joint venture or a subcontractor; (3) name, address, phone number, fax number, and email of key personnel whose experience is included in the past performance documentation.

SOLICITATION PROVISIONS UNIQUE TO THE AGENCY TENDER

In accordance with Circular A-76, Attachment B (4) the agency tender is not required to include (a) a labor strike plan; (b) a small business strategy; (c) a subcontracting plan goal; (d) participation of small disadvantaged businesses; (e) licensing or other certifications; and (f) past performance information.

Agencies are required to use COMPARE (the costing software that incorporates the costing procedures of Circular A-76) to develop cost estimates and generate the Standard Competition Form (SCF) (the agency form that documents and certifies all costs calculated in the standard competition). The agency tender will use the SCF in lieu of completing Section B. The agency tender will also generate and submit the documentation to develop the SCF in lieu of completing Volume V – Business Proposal.

VOLUME I - PAST PERFORMANCE

The Past Performance volume shall be organized as follows:

- Cover
- Table of Contents
- Cover Page

Past Performance is preferred from firms proposed as prime and subcontractors or as joint venture members. Large firms may submit past performance data only for the specific part of the firm submitting the offer. If required to demonstrate adequate past performance, new firms/ventures may submit past performance for personnel designated as key personnel. This combination of firms and personnel (as required) is referred to below as "team members."

Tab 1 - Written Consent of Team Members (No limitations on number. Letters shall not exceed one page and will be reviewed only for consent.)

The offeror shall provide written consent, on letterhead stationary (or equivalent), from each proposed team member, (1) allowing the Government to discuss that team member's proposal information with the offeror, and (2) allowing the Government to discuss that team member's past performance directly without contacting the offeror.

Tab 2 - Relevant Contracts. (NO Limitation on number of references)

The offeror shall complete form I-1 for all relevant contracts. Past performance data is required for all proposed team members.

Information must be provided on **all** Federal contracts for Supply Services support and related services that: (i) were awarded within three years prior to the closing date of this solicitation, or (ii) awarded more than three years ago, but completed within one year of the closing of this solicitation, and/or (iii) on-going contracts. The exclusion of any contracts meeting these time frames may be grounds for a marginal or poor evaluation. State and local Government contracts and/or commercial contracts may be included if the Federal Government contracts do not demonstrate adequate relevant experience in all phases of this project.

The Government will provide a standard questionnaire to references included on Form I-1 and to other persons knowledgeable of the offeror's performance. The Government reserves the right to determine to whom and for which contracts questionnaires will be sent to ensure that a fair sampling of past performance is considered.

The offeror is reminded that both data submitted by the offeror and data independently obtained by the Government may be used to evaluate the offeror's past performance as the basis to determine performance risk. Since the Government may not contact all of the references provided by the offeror, it is incumbent upon the offeror to fully explain the relevance of the data provided and to ensure that the data is current, accurate, and complete. The Government does not assume the duty to search for clarifications or cure problems it finds in the proposal. Proposals that do not contain the requested information, or are not in the format above, may risk not receiving credit for aspects of their past performance which may improve their performance risk rating.

Tab 3 – Relevant Performance

The offeror shall complete form I-2 for all references from form I-1. It is critical that offerors demonstrate performance quality and the ability to correct performance issues.

- **5. Range of Actual Salary as % of Proposed Salary** Derived by identifying the direct salary of all personnel hired by the company in each labor category in the past 12 months. The highest and the lowest salaries are then identified and divided by the proposed salary for each labor category. For example, the proposed direct labor rate is \$10 per hour, the highest and lowest actual direct salary over the last 12 months is \$20 and \$10 per hour, therefore, the range entered for that labor category would be 100% to 200%.
- **6.** Number of Current Personnel whose actual salary is within 10% of the Proposed Salary For example, using the information from above, the offeror would count the number of current personnel in the example labor category that has a direct salary of \$9.90 to \$10.10.

All offerors are reminded that the backup financial data for this form is required as part of the cost proposal. This form should be completed for each member firm associated with the offeror, and then one summary form should be prepared based on the individual forms. It is recognized that some very large organizations may have difficulties in compiling this information for the total company. Such organizations may choose to limit the information to a specific subsection of the company. This is allowed, if it is clearly noted as a footnote to the Form. Each Offeror may choose how best to demonstrate that their proposal is realistic in terms of experience in hiring applicable positions at the proposed rates.

This volume shall be specific, complete in every detail and separate from your technical proposal and comply with the content for each section as listed below and shall include completion of Section B of this RFP.

Tab 1 - Section B

The Offeror shall insert the completed Section B.

Tab 2 - Price/Cost Proposal

Cost or Pricing Data or Information Other than Cost and Pricing Data refers to the portion of the offeror's submission, which is factual. The requirement for cost or pricing data is satisfied when all facts reasonably available to the contractor up to the time of agreement on cost/price, and which might reasonably be expected to affect the price negotiations, are accurately disclosed to the Contracting Officer. See FAR 15.403 to determine the necessity for Cost and Pricing Data.

Offerors must submit, at a minimum, cost proposals fully supported by information adequate to establish the reasonableness of the proposed amount. If cost or pricing data is necessary, it should be in the format indicated in Table 15-2 of FAR 15.408. This table shall also be used to present information Other than Cost or Pricing Data. A detailed breakdown of estimated costs by phase, segment, or year must be submitted. For each separate cost estimate or line item (CLIN), the offeror must furnish a breakdown by cost elements as indicated in Table 15-2. In addition, summary total amounts shall be furnished for the following cost elements as appropriate for the offeror's cost proposal.

1. Direct Materials

For any proposed direct materials over and above those specified in CLIN 7, your proposal must separately show any major items (those equal to or greater than \$2,000 or 10% of the direct materials cost, whichever is lower) and their estimated costs. You must also show the basis for the

cost estimate, e.g.; competitive bids, catalog prices or vendor quotations and the names of proposed vendors.

2. Direct Labor

For each CLIN in Section B, provide schedules indicating types or categories of labor, man-hours and hourly rates used to calculate the proposed unit prices. Indicate whether current rates or escalated rates are used. If escalation is included, state the degree (percentage) and methodology, e.g., annual percentage rate applied to a base hourly rate as of a specific date or a mid-pointed percentage rate for the period of performance. If any proposed labor category is covered by the Service Contract Act (SCA), specify which SCA job classification and minimum hourly wage applies and show how the proposed hourly rate complies with the SCA Wage Determination(s) and is consistent with your organization's salary scales and/or the hourly rates currently paid by your organization. State whether any additional direct labor (new hires) will be required during the performance period of this contract. If so, state the number required and the anticipated date of hire. Offerors are encouraged to use the Staffing Plan as a basis for building these schedules.

3. Fringe Benefits

For each CLIN in Section B, provide the fringe benefits rate(s) used in calculating the proposed unit prices. If you proposed the fringe benefits rate(s) on your current Negotiation Agreement with an agency of the Federal government, you must attach a copy of the agreement. If you do not have a fringe benefits rate(s) negotiated with an agency of the Federal government, you must provide the basis for the proposed rate(s), i.e., a breakdown of the fringe benefits cost pool(s) and the labor costs base(s) used to calculate the proposed rate(s).

If fringe benefits are accounted for as part of your indirect costs and not separately proposed, so state.

Whether fringe benefits are included in indirect costs or separately proposed, you must provide information to clearly document that the minimum fringe benefits (Health and Welfare, paid vacation and holidays) required by the Service Contract Act (SCA) Wage Determination(s) have been proposed for those job classifications covered by the SCA.

4. Subcontracted Effort

For each CLIN in Section B, include parts, components, assemblies, and services that are to be produced or performed by others in accordance with offeror's design, specifications, or direction and that are applicable only to the prime contract and that were used in calculating the proposed unit prices. Subcontract costs must be shown in the same detail as that required for the prime offeror. For each subcontract over \$500,000, the

support should provide a listing by source, item, quantity, price, type of subcontract, degree of competition, and basis for establishing source and reasonableness of price, as well as the results of review and evaluation of subcontract proposals when required by FAR 15.404-3.

5. Overhead, General and Administrative Expense

For each CLIN in Section B, detail the proposed indirect cost rate(s) used in calculating the proposed unit prices. If you proposed the indirect rate(s) on your current Negotiation Agreement with an agency of the Federal Government, you must address the impact, if any, the subject contract would have on the negotiated rates. In addition, you must detail any rate adjustment required because of the HHS treatment of IR&D as noted below. If you have current indirect cost Negotiation Agreement with an agency of the Federal government, attach a copy of the agreement.

If you do not have a current indirect cost Negotiation Agreement with an agency of the Federal government or you did not use the indirect rates on your current Negotiation Agreement when calculating the proposed unit prices for any CLIN, you must provide detailed projected estimates of the proposed indirect rates. These projected estimates (based on companywide or division-specific cost data) must be broken down by expense category for both the indirect cost pool(s) and the indirect cost base(s) used to distribute the pool(s). The projected estimates should be based on annualized costs for the planned mode and level of operation during the period in which effort is to be expended under the subject contract. These estimates should take into consideration all operating changes. Comparative details of the costs incurred and their associated computed rates for the previous fiscal year also be provided.

NOTE: It is the policy of the Department of Health and Human Services (HHS) not to participate in or contribute to the cost of independent research and development (IR&D). As noted in the HHS Acquisition Regulation at 352.216-72, it is HHS policy that IR&D costs are unallowable and shall bear a proportionate share of overhead and G&A costs; therefore, IR&D costs should be excluded from indirect expense pools and included in the appropriate distribution bases. If your organization has no IR&D costs, a statement to that effect should be included with the above-required information. If your company does have IR&D costs they must be identified and the required adjustment(s) to your rates must be detailed.

6. Special Equipment

If special purpose equipment is being proposed, provide a description of the items, details of the proposed cost including competitive prices, and a justification as to why the Government should furnish the equipment or allow its purchase with contract funds. (See the paragraphs below of this section for policy on equipment.). If fabrication by the prime contract is contemplated, include details of material, labor and overhead.

7. Consultant Service

For each CLIN in Section B, proposed consultant services should be explained by indicating the specific area in which such services are to be used. Identify the contemplated consultants by name and state the number of hours of such services estimated to be required and the consultant's quoted rate per hour, and indicate the number of hours in which work will be performed. State whether the consultant has received the proposed hourly rate in performing similar services for other Organizations, especially when Federal funds were not involved.

8. Other Direct Costs

You must identify and provide documentation to support the proposed costs of any items/services not otherwise included elsewhere in your proposal.

9. Fee

Offerors shall identify a base fee.

10. Monthly Deductions

For the tasks listed in Schedule 1 of Section B -1, offerors must propose a monthly deduction for each of the performance standards in Section C for failure to meet Acceptable Quality Levels. Offeror's proposed deductions may be negotiated during evaluation. Deductions will be taken from the fixed price portion of the contract only.

Tab 3 - Cost Realism

The offeror shall document:

- (1) The realism of the proposed cost to the requirements (by the six major requirements by location)
- (2) The realism of the proposed costs compared to the proposed technical approach and staffing (by the six major requirements by location, with specific attention to the ability to staff the position descriptions at the proposed rates per location)
- (3) The realism of proposed costs to current business practices
- (4) The history of cost realism in regard to proposed cost compared to actual billed cost on past performance

Tab 4 - Business Capacity

The offeror shall provide complete financial statements, including notes, (current and two prior years) and use numbers, percentages and ratios to document:

- (1) Current capacity in terms of available funding and personnel
- (2) Available capacity in terms of additional funds and personnel readily available to the offeror
- (3) The adequacy of the current and available capacity in relationship to the requirements of this contract
- (4) The realism of the offer to initiate and maintain performance from a Business Capacity perspective

This small business set-aside contract requires continuity of services, which are tied to business capacity throughout the performance periods. Specific attention should be given to the business capacity during the transition period and the base performance period.

VOLUME VI – REPRESENTATIONS AND CERTIFICATIONS

Provide the requirements identified in Section K, including signatures, representations, certifications, amendments, and other official documents.

Article L.5 INCENTIVES AND DISINCENTIVES

In addition to the period of performance of the base year and four options years, the Service Provider may earn extensions (hereinafter called "award terms") up to three additional years for a high performing organization that continued cost savings justifies the extension based upon the quality of performance during the specified evaluation periods. The evaluation periods and methods of evaluation are explained in the Quality Assurance Surveillance Plan (QASP). Award term extensions will not be granted if there is not a bona fide continued need for the services provided.

The Service Provider's performance will be evaluated in accordance with the QASP. The plan may be changed at any time during the agreement between the Service Provider and the Government.

PART IV - REPRESENTATIONS AND INSTRUCTIONS

SECTION M

EVALUATION FACTORS FOR AWARD

ARTICLE M.1 GENERAL

The term "offeror" is used to describe commercial offerors, the Agency Tender, and reimbursable public tenders that may propose in accordance with OMB Circular A-76. The term "contract" is used to describe a commercial contract, an ISSA, or a letter of obligation, which may be awarded in accordance with OMB Circular A-76. This Acquisition is for a "mixed-type" requirement consisting of cost and price elements. Therefore, the evaluation methods are used as appropriate to each "type." The source selection method is low-cost/technically acceptable.

Technically acceptable is defined through the performance levels in the PWS (Section C). This requires meeting all the requirements (services and service levels) and standards within the workload variances. Technically acceptable is NOT meant to imply "marginal," "partial compliance," or "what is acceptable on other contracts." NIH has specific and unique programs and requirements. Technically acceptable in this case implies a historical level of performance that effectively achieves the NIH mission in a cost efficient manner. The designation of technically acceptable is applied to both technical and cost factors.

Offerors are also notified that award will comply with the rules of OMB Circular A-76.

ARTICLE M.2 BUSINESS EVALUATION

To be considered compliant to this solicitation, the offeror shall offer for all items listed in Section B for the basic contract period and each separate option period.

ARTICLE M.3 EVALUATION AND AWARD CRITERIA

The following cost/technical factors will be used for determining technical acceptability and realistic price/cost.

1) TECHNICAL EVALUATION CRITERIA

a) Past Performance

The evaluation will be based on information obtained from references provided by the offeror, as well as other relevant past performance information obtained from other sources known to the Government. The evaluation will consider: (1) the quality of past performance, and (2) efforts similar to NIH's requirements and (3) the quantity of related work

The Government will assess the relative risks associated with each offeror to access technical acceptance. Performance risks are those associated with an offeror's likelihood of success in performing the acquisition requirements as indicated by that offeror's record of past performance.

The assessment of performance risk is not intended to be the product of a mechanical or mathematical analysis of an offeror's performance on a list of contracts, but rather the product of subjective judgment by the Government after it considers all available and relevant information.

When assessing performance risks, the Government will focus on the past performance of the offeror as it relates to all acquisition requirements, such as cost, schedule and performance, including standards of good workmanship; the offeror's adherence to contract schedules, including the administrative aspects of performance; the offeror's reputation for reasonable and cooperative behavior and commitment to customer satisfaction; and generally, the offeror's business-like concern for the interest of the customer.

The Government will consider the number or severity of an offeror's problems, the effectiveness of corrective actions taken, the offeror's overall work record, and the age and relevance of past performance information. The goal is to demonstrate the ability to perform and respond quickly to all issues.

The following rating method shall be used in the evaluation of past performance information:

Excellent - Based on the offeror's performance record, no doubt exists that the offeror will successfully perform the required effort. A significant majority of sources of information are consistently firm in stating that the offeror's performance was superior and that they would unhesitatingly do business with the offeror again. The type of work performed is directly related to NIH requirements. The type of work is similar to the NIH requirements.

<u>Good</u> - Based on the offeror's performance record, little doubt exists that the offeror will successfully perform the required effort. A significant majority of sources of information state that the offeror's performance was good, better than average, etc., that they would do business with the offeror again. The type of work performed is directly related to NIH requirements. The quantity of work performed is the same or greater than the NIH requirements.

<u>Neutral</u> – In the case of an offeror without a record of relevant past performance or for whom information on past performance is not available, the offeror may not be evaluated favorably or unfavorably on past performance.

<u>Marginal</u> - Based on the offeror's performance record, some doubt exists that the offeror will successfully perform the required effort. Many sources of information make unfavorable reports about the offeror's performance and express concern about doing business with the offeror again.

Poor - Based on the offeror's performance record, serious doubt exists that the offeror will successfully perform the required effort. A significant majority of sources of information consistently stated that the offeror's performance was entirely unsatisfactory and that they would not do business with the offeror again.

An offeror must receive a rating of good, excellent, or neutral to be considered technically acceptable.

b) Understanding of the Requirement/Technical Approach

Evaluation shall assess the detailed technical description of how all the required work will be accomplished. This will include evaluation of proposed methodologies for demonstration of an understanding of every requirement included in the **six major requirements and the phase-in period** identified in Section C.5 and additional RFP requirements. Offerors will be evaluated on the proposed means, techniques and procedures to be utilized for complying with the Performance Work Statement. This includes receipt of input; process for performance; quality, timelines, and productivity standards for output; and process improvements for each of the requirements. For a good or excellent evaluation the offeror must show the ability to accomplish the desired results within the proscribed standards and workload, demonstrate the quality of work in providing services, and how policies, procedures, and practices will preserve Government property and equipment and minimize life cycle costs. The evaluation will also assess the offeror's ability to respond to abnormal conditions such as emergencies, weekends and after hour requirements, workload peaks and valleys, and leased facilities.

The following rating method shall be used in the evaluation of the technical approach information:

Excellent - Based on the offeror's technical approach, no doubt exists that the offeror will successfully perform the required effort. The technical approach shows a complete understanding and methodology for completing **all six major requirements** at **all applicable Institutes and Centers (ICs) and the phase-in period**, within the standards and workload specified.

<u>Marginal</u> - Based on the offeror's technical approach, some doubt exists that the offeror will successfully perform the required effort. The technical approach shows a marginal understanding and methodology in one of the six major requirements at one or more of the specified ICs or the **phase-in** period within the standards and workload specified.

Poor - Based on the offeror's technical approach, serious doubt exists that the offeror will successfully perform the required effort. The technical approach demonstrates significant deficiencies in understanding and implementing performance of one or more of the six major requirements at one or more of the specified ICs or the **phase-in** period, within the standards and workload specified.

An offeror must receive a rating of good or excellent to be considered technically acceptable.

c) Understanding of Staffing Requirements

The evaluation shall assess the quality and competence of the proposed staff, and whether they meet the qualifications necessary to accomplish the described work. This will include evaluation of whether the proposed experience, and/or education demonstrates a thorough understanding of the operating principles, and safe provision of services as evidenced by the detailed staffing data that identify the supervisor to worker ratios, skills, knowledge, abilities, education and experience required for each technical process and the proposed quantity of hours by position classification, by requirement.

The evaluation shall also assess the offeror's ability to hire and retain personnel qualifying for the Position Descriptions at the rates proposed and the offeror's historical experience in hiring, managing, and replacement of personnel in each labor category and pay range, and historical and anticipated turnover rates.

The following rating method shall be used in the evaluation of the staff information:

<u>Excellent</u> - Based on the offeror's proposal, no doubt exists that the offeror will successfully perform the required effort. The staffing documentation shows a complete understanding of the personnel requirements for **all six major requirements** at **all applicable ICs**, within the standards and workload specified.

 $\underline{\textbf{Good}}$ - Based on the offeror's proposal, little doubt exists that the offeror will successfully perform the required effort. An offeror must receive a rating of good or excellent to be considered technically acceptable.

d) Understanding of Management Requirements

The evaluation will assess the quality and method of management positions and systems to internal project management (to include subcontracts), direct and indirect client requirements, ability to manage the size, complexities, scope and locations of all the functions set forth in the PWS. The assessment will specifically focus on the management system's reflection of the offerors understanding of the NIH culture and technical requirements in order to support the NIH mission.

The following rating method shall be used in the evaluation of the management information:

Excellent - Based on the offeror's proposal, no doubt exists that the offeror will successfully manage the required effort. The management documentation shows a complete understanding of the management requirements for **all six major requirements** at **all applicable ICs**, within the standards and workload specified. The management approaches, organizational structure and management controls, tracking measures, task management system, and quality control plan are have deficiencies, or is based on untailored corporate policies, or is based on unproven methodologies.

An offeror must receive a rating of good or excellent to be considered technically acceptable.

2) PRICE/COST EVALUATION CRITERIA

a) Price/Cost Realism

The evaluation will be based on information obtained from references provided by the offeror, as well as other relevant past performance information obtained from other sources known to the Government. The evaluation will consider: (1) the realism of the proposed cost to the requirements (by the six major

requirements by location), (2) the realism of the proposed costs compared to the proposed technical approach and staffing (by the six major requirements by location), (3) the realism of proposed costs to current business practices, and (4) the history of cost realism in regard to proposed cost compared to actual billed cost on past performance.

The following rating method shall be used in the evaluation of the Price/Cost Realism information:

The Price/Cost documentation shows a marginal understanding of the requirements in one of the six major requirements at one or more of the specified ICs, within the standards and workload specified.

<u>Poor</u> - Based on the offeror's proposal, serious doubt exists that the offeror's price/cost is realistic in one or more of the four areas in the criteria. The Price/Cost documentation demonstrates significant deficiencies in understanding the management requirements of one or more of the six major requirements at one or more of the specified ICs, within the standards and workload specified.

An offeror must receive a rating of good or excellent to be considered technically acceptable.

b) Business Capacity

The evaluation will assess the offeror's business capacity to initiate and maintain this contract. The evaluation will consider: (1) current capacity in terms of available funding and personnel, (2) available capacity in terms of additional funds and personnel readily available to the offeror, (3) the adequacy of the current and available capacity in relationship to the requirements of this contract, and (4) the realism of the offer to initiate and maintain performance. Specific attention shall be given to the small business's financial capacity during the transition period and first performance period.

The following rating method shall be used in the evaluation of the Price/Cost balance information:

Excellent - Based on the offeror's proposal, no doubt exists that the offeror has or can reasonably obtain the capacity to initiate and maintain the contract, within the standards and workload specified.

<u>Good</u> – Based on the offeror's proposal, little doubt exists that the offeror has or can reasonably obtain the capacity to initiate and maintain the contract, within the standards and workload specified.

ARTICLE M.4 SOURCE SELECTION

The evaluation will result in identification of technically acceptable proposals. To be technically acceptable, an offeror must be evaluated as good or excellent in **all** four technical criteria and **the** two price/cost criteria. A neutral rating for past performance is technically acceptable. This reflects the criticality of the requirements and maintains current required service levels. Upon approval of the Source Selection Authority (SSA), the performance decision shall be based on the lowest cost of all the offers and tenders determined to be technically acceptable.

ARTICLE M.5 EVALUATION OF OPTIONS (FAR 52.217-5) (JUL 1990)

Except when it is determined in accordance with FAR 17.206(b) not to be in the Government's best interests, the Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. Evaluation of options will not obligate the Government to exercise the option(s).

ARTICLE M.6 NEGOTIATIONS

The Government reserves the right to negotiate with any and all offerors. However, negotiations MAY be conducted with only those offerors who are determined to be in a competitive range in regard to technical and cost factors. Negotiations may address all evaluation factors.
